### **This is a SOLID WOOD product:**

We inspect all wood, and follow guidelines to pass quality inspections. Solid wood furniture has knots, small cracks, and what may look like blemishes. These characteristics are a natural by product of producing furniture from natural material.

We take extra care with our drawer parts:

1. We use real wood drawers sides.
2. The drawer sides are not painted to help protect your clothes from chemical odors and residue.
3. Finely sanded drawer parts eliminate snags when storing your clothes.

These tools are not supplied by the manufacturer

### Safety and Care Advice

- Check you have all the components and tools listed on pages 4.
- Remove all fittings from the plastic bags and separate them into their groups.
- Keep children and animals away from the work area, small parts could choke if swallowed.
- Make sure you have enough space to layout the parts before starting.
- Do not stand or put weight on the product, this could cause damage.
- Assemble the item as close to its final position (in the same room) as possible.
- Opened box can be used to protect your floor or counter during assembly.
- Assembly is easier for drawer parts on a counter.
- Parts of the assembly will be easier with 2 people.
- We do not recommend the use of power drill/drivers for inserting screws, as this could damage the unit.
- Only use hand screwdrivers.
- Dispose of all packaging carefully and responsibly.
