### Parts of this product are real SOLID wood:

We inspect all wood and follow guidelines to pass quality inspections. Real solid wood has knots, small cracks, and what may look like blemishes. These characteristics are a natural by-product of producing furniture from natural material.

We take extra care with our drawer parts.

We use real wood drawer sides that are finely sanded to prevent snags to stored clothing. We do not paint the drawer sides to protect your clothing from chemical odors and residue.

**IMPORTANT**

Perform the entire assembly on a clean, hard surface using the flattened box or a towel to protect the surface and the unit's finish. **DO NOT** assemble on carpet.

Carpet creates too much bounce making assembly difficult and could lead to damage of the parts.

**PLEASE NOTE:**

**DOWELS (PART A) VARY EVER SO SLIGHTLY. IF A DOWEL (PART A) IS LOOSE, WE PREFER YOU CALL OUR TOLL FREE NUMBER FOR ADDITIONAL DOWELS - VS GLUING THE DOWEL.**

**IF YOU CHOOSE TO GLUE THE PARTS, COMPLETELY TEST THE ASSEMBLY FIRST. WE DO NOT SUPPLY GLUE.**

## Safety and Care Advice

- Check you have all the components and tools listed on pages 3 & 4.
- Remove all fittings from the plastic bags and separate them into their groups.
- Keep children and animals away from the work area, small parts could choke if swallowed.
- Make sure you have enough space to layout the parts before starting.
- Do not stand or put weight on the product, this could cause damage.
- Assemble the item as close to its final position (in the same room) as possible.
- Opened box can be used to protect your floor or counter during assembly.
- Assembly is easier for drawer parts on a counter.
- Parts of the assembly will be easier with 2 people.
- We do not recommend the use of power drill/drivers for inserting screws, as this could damage the unit.
- Only use hand screwdrivers.
- Dispose of all packaging carefully and responsibly.
