Parts of this product are real **SOLID** wood:

We inspect all wood and follow guidelines to pass quality inspections. Real solid wood has knots, small cracks, and what may look like blemishes. These characteristics are a natural by-product of producing furniture from natural material.

Safety and Care Advice

- Check that you have all of the components and tools listed on pages 3, 4 & 5.
- Remove all fittings from the plastic bags and separate them into groups.
- Keep children and animals away from the work area, small parts could choke if swallowed.
- Make sure you have enough space to layout the parts before starting.
- Do not stand or put weight on the product during assembly, this could cause damage.
- Assemble the item as close to its final position (in the same room) as possible.
- Opened box or towels can be used to protect your surface and the product's finish during assembly.
- Parts of the assembly will be easier with 2 people.
- We do not recommend the use of power drill/drivers for inserting screws. Over-tightening screws can cause damage to the product.
- Only use hand screwdrivers.
