## WELCOME TO ADEPTUS!

---

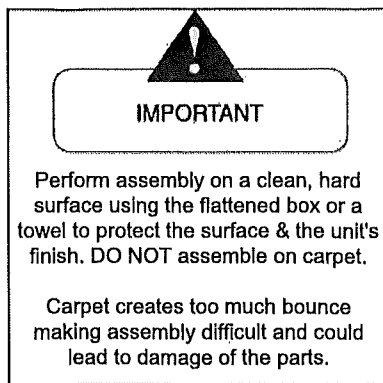

This is a **SOLID WOOD** product:

We inspect all wood and follow quality assurance guidelines that pass third-party inspections.

**Note:** Real wood has knots, small cracks, and what may look like blemishes. These characteristics are expected when producing furniture from natural material.

We take extra care with our drawer parts:

1. We use real wood drawer sides and drawer backs.
2. Drawer sides and backs are not finished to protect fabrics from any residual paint odor.
3. Drawer parts are finely sanded to prevent snags.

**DO NOT FORCE OR OVER-TIGHTEN THE SCREWS. DOING SO CAN DAMAGE THE PARTS.**

### PLEASE NOTE:

DOWELS (PART A) VARY EVER SO SLIGHTLY. IF A DOWEL (PART A) IS LOOSE, WE PREFER YOU CALL OUR TOLL FREE NUMBER FOR ADDITIONAL DOWELS - VS GLUING THE DOWEL.

IF YOU CHOOSE TO GLUE THE PARTS, COMPLETELY TEST THE ASSEMBLY FIRST. WE DO NOT SUPPLY GLUE.

## Safety and Care Advice

- Check you have all the components and tools listed on pages 3 & 4.
- Remove all fittings from the plastic bags and separate them into their groups.
- Keep children and animals away from the work area, small parts could choke if swallowed.
- Make sure you have enough space to layout the parts before starting.
- Do not stand or put weight on the product, this could cause damage.
- Assemble the item as close to its final position (in the same room) as possible.
- Opened box can be used to protect your floor or counter during assembly.
- Assembly is easier for drawer parts on a counter.
- Parts of the assembly will be easier with 2 people.
- We do not recommend the use of power drill/drivers for inserting screws, as this could damage the unit.
- Only use hand screwdrivers.
- Dispose of all packaging carefully and responsibly.
- Never sit, stand or allow children to climb on the assembled unit.
